

GeoBlue Provider Network:

Trusted Care Around the Globe

Network Overview

GeoBlue has built a comprehensive provider network ensuring members timely, convenient access to quality care secured by contractual commitments and offering robust global coverage and support. GeoBlue extends its global reach through the development of relationships through the Blue Cross Blue Shield network in the U.S. and Bupa outside the U.S. By leveraging these strong relationships, we are able to deliver an extensive global network.

Outside the U.S.: *Highest standards of quality*

Over 7,000 directly contracted English-speaking doctors, dentists and behavioral specialists

190 countries and territories around the world

Over 1,900 contracted facilities

110 categories of medical, surgical, dental, behavioral health and alternative medicine specialties and sub-specialties

Network is anchored by over 160 Regional Physician Advisors strategically located in 92 countries.

Direct Pay Access to 50,000 providers through local partners

Inside the U.S.: *Largest hospital and physician network in the U.S.*

Over 653,000 physicians; 92% of all the doctors in the U.S. are in-network

5,500 hospitals; 96% of all the hospitals in the U.S. are in-network

More participating board-certified doctors than any other health insurance company

Network providers in every zip code in the U.S.

Provider Selection

Our network was built to meet the needs of expatriates and the globally mobile population. It is comprised of carefully selected and profiled top physicians who meet rigorous selection criteria and agree to adhere to the quality standards set forth by GeoBlue:

Nominated by our Regional Physician Advisors (RPAs)

Recruited for credentials, quality and member convenience

Practice Western style medicine and possess accreditations and internationally recognized board certifications such as those from American, UK, Canadian, Australian and New Zealand authorities

All contracted providers speak English; the majority speak at least one other language as well

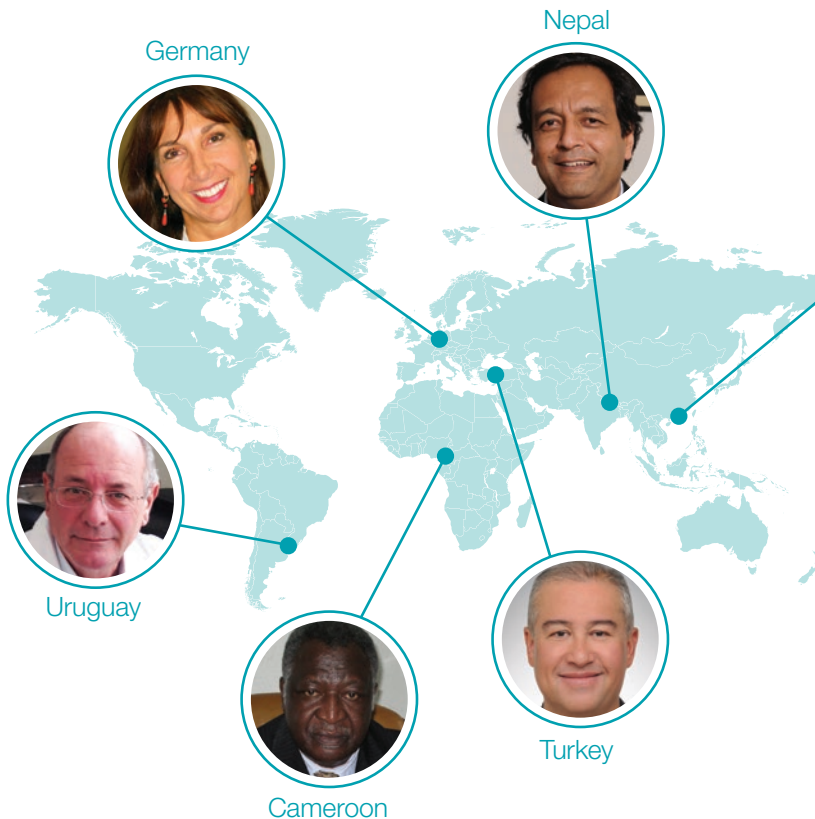

Provider Relationships and Responsibilities

Relationships are backed with direct contracts with doctors and facilities with specific provisions to ensure ease of access to care:

- Accept Direct Pay from GeoBlue
- Respond quickly to appointment requests
- Participate in case management as necessary
- Support the members by coordinating and communicating treatment plans and options, including access to emergency or evacuation services

RPAs are strategically located around the globe in areas including:

Regional Physician Advisors

The GeoBlue provider network is anchored by over 160 Regional Physician Advisors (RPAs) who are experts in their local healthcare systems and are strategically located in 129 cities in 92 countries. Because of the complexity of healthcare systems abroad, RPAs are invaluable resources for identifying medical specialists and consulting on treatment options as needed.

Hong Kong
